Project information

Power BI | Zebra BI | IBCS® | Actionable reporting | part 6 – treemap visual

In today's reality, creating reports that are just showing some numbers is not enough.

Actionable Reporting is about getting insights fast: the faster you learn what's happening with your performance, the faster you can decide what to do next.

In this example you will see how you can use Zebra BI visuals to accomplish this.

This example is the use of the treemap visual makeover.
